Judge Sherwood was informed that Adams county authorities have lodged a detainer against Beard. The judge sentenced the defendant to 60 days in jail on a charge of defrauding a boarding house keeper but directed that if before the end of that time Adams county officers appear to take custody of him he is to be released to them on condition that he will not return to York county for at least a year.

ERECT 210-FT. TOWER FOR WGET RADIO STATION

Workmen have begun the erection of the 210 foot tower for Gettysburg's radio station WGET on the Harrisburg road. It includes the base, insulator and top lights.

The tower is constructed of three steel tubing legs spaced 15 inches apart, with welded cross members. The total weight of the tower is about 7,000 pounds. It is kept in place with three sets of four guy cables. It is painted with alternate bands of international orange and white.

For night marking there will be installed, at the top, two 100-watt lamps enclosed in aviation red Fresnel obstruction light globes. The lights will burn simultaneously and will be positioned so as to insure unobstructed visibility of at least one of the lights from aircraft at any angle of approach. On levels approximately two thirds and one third of the over-all height of the tower, two other lamps will be installed. All lighting will be exhibited from sunset to sunrise.

Two Coaxial Cables

A cabinet will be located at the base of the tower to house the necessary tuning equipment. This will be connected with the main transmitter located in the control room by two lines of coaxial cable. One of these lines will be in use all the time. The other will be used in event of an emergency.

The ground system is made up of a 24x24 foot copper ground screen at the base of the tower plus 24,000 feet of number 10 AWG copper wire. This wire is cut into 120 radials of 200 feet each and placed each three degrees with the tower as the center of the circle. All of this is buried about 10 inches below the surface of the ground.

100 Children From Lincoln's District Visit Gettysburg

One hundred Illinois children, from the 21st congressional district of that state, the district which Abraham Lincoln represented in congress before his election as president, visited Gettysburg Tuesday, stood on the spot in the National cemetery where Lincoln delivered his immortal Gettysburg Address, and saw the "Bloody Angle" where Union forces stopped Pickett's charge.

They made the same trip, more than a hundred years later, that Lincoln made, from Springfield, Ill., to Washington, D. C. The difference was that the children traveled in three buses.

All of the 100 visitors in Gettysburg Tuesday enroute to the National Capital were underprivileged or handicapped children. They were making the trip as guests of Congressman Peter F. Mack, Jr., who now represents the same district in congress that Lincoln represented many years ago. All expenses of the trip were paid by Congressman Mack.

At the National monument in the cemetery and at the Bloody Angle, brief lectures on these historic spots and on other aspects of the battlefield were given by Fred Tilberg, national park historian.

The three bus loads of children arrived in Gettysburg via the Pennsylvania Turnpike to Carlisle and from that town through Biglerville to the Nation's Shrine. They were furnished a state police escort for the entire journey through Pennsylvania, and were met at the Maryland state line on Route 15 south of Gettysburg by Maryland state troopers who escorted them to the District of Columbia line.

POWER BREAKS ARE CAUSED BY BOLTS TUESDAY

Lightning was blamed for the suspension of electric power service in Gettysburg early Tuesday evening, Richard E. Dreas, manager of the Metropolitan Edison company, said today.

The heavy rains accompanying the electrical storm totaled 1.37 inches at The Gettysburg Times weather station and flooded town streets. Creeks overflowed their banks in many places.

The first break in electrical service came at approximately 5:45 o'clock in the afternoon when lightning burned out one of the two 13,000 volt wires feeding the Gettysburg substation. This break was three miles from Gettysburg on the Bonneville road. A short time later the second 13,000 volt line was put out of service when a tree, believed to have been struck by lightning, fell against the heavy wire on the west side of the Conewago, at New Oxford. It grounded that wire and thus shut off power.

Emergency Service

Mr. Dreas said that the third line of 13,000 volts, from Gardners, which also services Gettysburg, was not of sufficient strength to carry the heavy load in town. Local workers then cut into the third line with three distribution wires out of the local substation which restored service to most of Gettysburg at approximately 7:10 p.m. Some homes on the southern outskirts of Gettysburg and some rural lines could not be serviced until about 8:45 p.m. when workers completed the task of splicing the broken wire at Bonneville. A short time later the grounded wire at New Oxford was restored to service.

Mr. Dreas said that every available crewman was summoned to emergency service when the first break was felt.

A fire on Route 211, between the Biglerville and Mummaburg roads, burned out a transformer.

Phone Service Hit

There were other minor scattered interruptions all of which have been restored. Crewmen completed their work about 1 o'clock this morning.

The United Telephone company reported minor service trouble because of the heavy rains in Gettysburg and Biglerville and one line was broken down by a falling limb but most of the trouble had been taken care of by mid-morning, a company spokesman said.

The Adams Electric Cooperative reported no trouble of their own but their Adams county customers were without current for more than an hour Tuesday evening because of the failure of power on the Metropolitan Edison lines which furnish current to the Cooperative.

550 AT DANCE TUESDAY NIGHT DESPITE STORM

Five hundred fifty persons braved Tuesday night's thunderstorms and downpour of rain to drive to Memorial hall at the South Mountain fair grounds, to hear Tony Pastor and dance to the music of this well-known band.

That the dance was held at all was the result of hard work of several persons connected with the fair association.

Arnold Orner, president of the First National Bank of Arendtsville, and president also of the fair association, said that the fair grounds was swept by three storms prior to the time set for the dance.

Water came down faster than the ditches and gutters at the grounds could carry it off, and poured onto the dance floor from one of the exit doors and flowed in a stream through the front entrance.

Rain Soaks Wall

As the water subsided, it was swept off the floor and was applied again. The fact that the floor had been well waxed before the dance prevented serious damage, Mr. Orner said. Rain also soaked through the west wall of the auditorium.

By dance time, all was in order again, however, and the weather did not interfere, except as it may have kept many persons away. The crowd of 550 was about one-third of what had been expected.

The large parking area was also flooded, cars were allowed to drive to the entrance of the auditorium to discharge all passengers but the driver, who had to park his car and get back through the drenched grounds.

"In spite of the weather and what it did to us we of the fair association were very well satisfied with the crowd. We do not expect to lose any money on the venture, and intend to bring other name bands to the fair grounds on subsequent dates," Orner said.

FIRE DESTROYS DWELLING NEAR MUMMASBURG

The small, story and a half concrete block home of Mr. and Mrs. Chester W. Lawrence, midway between VanDyke's corner and Mummaburg, Gettysburg R. 3, was destroyed by fire Tuesday evening during an electrical storm but neighbors and firemen were more inclined to blame defective wiring than lightning.

Mr. and Mrs. Lawrence and their two small children were in Emmittsburg, Mrs. Lawrence's home, for the evening and returned shortly before 10 o'clock during a light shower of rain to find the roof of their home falling in while Biglerville firemen pumped water from booster tanks onto the blazing ruins.

Mr. Lawrence, who was unable to estimate the loss, said he believed either a stroke of lightning or electrical wiring or fixtures in the home caused the fire. Neighbors could not recall any close strokes of lightning immediately before the fire.

Loss All Clothing

The flames were discovered breaking from the rear of the home by a passing truck driver who notified Richard Musselman, a neighbor. Musselman called the Biglerville Fire company.

All of the Lawrences' furniture and all their clothing excepting that which they were wearing were lost. An electric washing machine which was standing outside the home was moved to safety by neighbors. Firemen saved small outbuildings.

Mrs. Lawrence and their children, a four-year-old son and a daughter, aged 10 months, returned to Emmittsburg where they spent the night with relations. Mr. Lawrence, who is employed at a North Washington street restaurant, slept in his truck at the site of his home.

Today the Adams county chapter of the Red Cross came to the assistance of the family with steps being taken to meet their emergency needs.

EXAMINE FLAWS IN EDUCATION'S PRESENT SETUP

"What Is Wrong with Modern Education?" was the topic of an address by Dr. Henry W. A. Hanson, president of Gettysburg college, at the Tuesday night dinner of schoolmen attending the sixth annual summer conference of the National Association of Secondary School Principals, in Huber hall.

Discussing criticisms of the educational pattern, Dr. Hanson said that frequently what is wrong in education is not the technical presentation, but the neglect of social and moral characteristics.

Out of an open forum discussion later in the evening, at which Charles R. Wolfe, college registrar, was chairman, came the opinion that colleges training teachers should strengthen them to recognize individual differences in pupils and teach them how to meet them.

To Compile Reports

The discussion leaders were Guile W. Lefever, principal of the Gettysburg high school; Ralph Schoekey, principal of the Chambersburg high school; Carl Greenwalt, supervising principal of Lemasters schools, and Huber Strine, supervising principal of the Spring Garden schools.

Mr. Strine presided at this morning session.

Others in attendance from the Gettysburg congregation included Mr. and Mrs. Cyrus Bucher and daughters, Biglerville; Rev. John Miller and Mrs. Hermie Zoller, both of Gettysburg, and Mrs. Nellie Leatherman, Mummaburg.

OFFER VOGELER FOR CROWN OF SAINT STEFAN

Vienna, Austria, June 21 (AP)—Communist-ruled Hungary has offered to swap imprisoned American businessman Robert A. Vogeler for one of her most venerated religious relics, the Allied-held crown of St. Stefan, it was learned here Tuesday.

Reliable sources said progress of negotiations between the U. S. and Hungary indicated Vogeler, sentenced to 15 years imprisonment last February 21 for spying and sabotage, might be released within a few weeks.

The crown, which dates back to Hungary's 11th century King Stefan I, was taken from Hungary by the Nazis and found by American troops in Germany. It was last reported held by the western Allies in 1947 at Wiesbaden, in western Germany.

Given To King
(In Frankfurt, an Allied high commission source said he had been told that the priceless crown has been moved from place to place for security reasons but that he has "strong reason to believe it is in Frankfurt now.")

The United States, reportedly at Vatican urging, has refused repeated demands by Hungary's Red government for the crown.

Return of the crown, the sources here said, was the only ransom price set for Vogeler by the Hungarians.

Many Hungarians attribute miraculous powers to the crown and believe that no government holds power legitimately unless it has possession of the relic.

The famous crown was given by Pope Sixtus in 1001 to Stefan, Hungary's first king—his title was "Apostolic King"—for converting the Hungarians to Christianity.

MAN TO FACE MURDER COUNT

McConnellsburg, Pa., June 21 (AP)—A charge of murder was filed Tuesday against Walter Bishop, 55, in the shotgun death of his brother, Lester B. Bishop, 34.

State Policeman Frank Bender filed the charge before Justice of the Peace W. H. Gresham. A hearing was set for Saturday.

Walter Bishop was returned on Monday from Cumberland, Md. where he was arrested Saturday a few hours after his brother was found slain at his home near the Pennsylvania-Maryland border.

An inquest held on Monday coroner Edgar T. MacKinley, Pottsville, reported in a finding by the coroner's jury that the one brother killed the other.

Raymond Bishop, another brother, testified he saw Walter fire the fatal shot. He also testified that Walter threatened both Lester and himself.

Coroner MacKinley said the testimony developed that the shooting followed an argument over possession of some tools. District Attorney Albert Foster said Walter admitted firing the shot but that he did not know where the shot went and did not intend to shoot anybody.

Fired For Calling On Mayor's Wife

Cleveland, June 21 (AP)—Highland Heights' 58-year-old police chief, who described himself as "an errand boy for a bunch of women," won't have to run those errands any more. He was fired Tuesday by the village council for "consorting" with the mayor's wife.

Solons of the suburban village of nearly 500 voted the dismissal 6-2 after listening 5½ hours to the case of Fay & Payne.

Fay Dalrymple, the chief, was accused by Mayor Clem (Bud) Ley, 40, of consorting with Ley's wife, Fay, 39.

Ley testified he suspended the chief May 9 when he found him with Fay in the kitchen of the mayor's home. In the six weeks since then, the villagers have been choosing up sides. About 200 of them attended the hearing Monday night.

But the chief said his visits to the Ley home, "maybe four or five a week," were either on official business or errands for the village women.

"Hot Rod" Stripped Too Far, Police Say

Kansas City Kas, June 21 (AP)—Two young brothers, passengers in a "hot rod" motor car, fell out and were injured when it turned a corner on Monday.

Police decided the driver, Wayne Ward, Jr., 15, had stripped the car down too much. They declared it unsafe for these reasons:

No body.
No lights.
No floorboards.
No rear fenders.
The only seat cushion was not fastened to the frame.

Milk Price Boost For July 1 Urged

Harrisburg, June 21 (AP)—The State Milk Control commission on Tuesday called for a cent a quart increase in retail milk prices for most of eastern Pennsylvania, starting July 1.

The tentative boost would affect the Philadelphia, suburban Philadelphia, York, Reading, Lancaster and Harrisburg milk marketing areas. If finally placed into effect, the price hike would set up the possibility of an upward summer milk price trend for the remainder of the state.

Conferences between the commission and dealers and producers were called for today and tomorrow to thrash out objections to the orders. The discussions sometimes bring about changes in the tentative orders before they are made permanent.

The commission also proposed boosts in producers' prices ranging from 20 to 30 cents hundredweight (46½ quarts) in the six different areas.

PRESBYTERIANS ELECT

Chambersburg, Pa., June 21 (AP)—Jesse S. Bell, of Williamsport, is moderator of the 69th annual Pennsylvania Presbyterian synod convention, meeting at Wilson college through Friday. Bell, a layman and an elder in the Northampton Presbyterian church, was elected to succeed the Rev. Edward H. Jones, of Grove City, at Monday's opening session. The Rev. Mr. Jones formerly was pastor of the Gettysburg Presbyterian church.

TO ARGUE FOR NEW TRIAL

Lancaster, Pa., June 21 (AP)—Counsel for Edward Lester Gibbs will be given an opportunity to present arguments in the week of June 26 on his petition for a new trial. Gibbs, 25-year-old married Franklin and Marshall college student from Pitman, N. J., was convicted last March on a murder charge in the slaying of pretty Marjorie Louise Baker, college secretary.

SENATORS AGREE

Washington, June 21 (AP)—Pennsylvania's senators were of the same opinion as the Senate passed and sent back to the House a bill to expand and increase federal social security benefits. Both Senator Myers (D) and Senator Martin (R) voted for the bill last night.

WILL LIKELY ADD 100 FBI AGENTS

Washington, June 21 (AP)—J. Edgar Hoover's campaign for 300 additional FBI agents to hunt down Communist spies appeared today to be tabbed for victory.

The House Appropriations committee and a Senate appropriations subcommittee were reported to have agreed to approve the FBI director's request.

The Senate subcommittee's recommendation is expected to be accepted in turn by the Full Appropriations group and the Senate.

Hoover told Senators two months ago in a secret session that there are 54,000 known Communists and some 500,000 Red sympathizers in the United States who form a potential fifth column of traitors.

He said at that time that the Communists were more active today than Fascist and Nazi agents ever were during World War II.

Hoover's testimony, released on June 8, left a deep impression on lawmakers. One Senator, who asked that his name be withheld, said both the House and Senate groups felt Hoover should get the full number of agents he requested plus about 400 additional other employees to help carry the Federal Bureau of Investigation's heavy work load.

This would give Hoover the largest force of undercover agents the Federal Bureau of Investigation ever had and allow for greatly increased activity in seeking out subversives and foreign spies.

Maine Nominates Woman For Congress

Portland, Me., June 21 (AP)—To her own pleasant surprise Miss Lucia M. Corimer is a Democratic Congressional nominee today.

The plump, attractive Rumford book store owner won the stoutest victory in Monday's Maine primaries.

The Democratic National committeewoman, who is 38, beat Dr. Adrian H. Scollen of Portland in the First district. Her margin was better than two to one.

A newcomer in politics, she said happily: "Five years ago if anyone had told me I would ever run for Congress I'd have quickly told them they were crazy."

Dr. Scollen commented that "perhaps Miss Corimer is the second Margaret Chase Smith she aspires to be and perhaps Maine does prefer women as their representatives in Washington."

Main Senator Smith served eight years in the House before defeating Scollen for the Senate in 1948.

U.S. Vice Consul Suicide In Frankfurt

Frankfurt, June 21 (AP)—The U. S. High Commission announced today that Clay H. Henderson, 33, a U. S. vice consul in Frankfurt, committed suicide yesterday. Henderson, an official announcement said, was found dead of a self-inflicted gun shot wound in his apartment.

Henderson, who was born in Pocatonga, Ark., has a mother and brother living in Ventura, Calif.

Henderson's body was discovered last night after a member of the consulate staff in Frankfurt had been sent to investigate his absence from his office. Henderson's body, the commission stated, was found lying beside a gun.

"Mr. Henderson had shot himself through the right temple and apparently had died about 3 p. m. yesterday afternoon," the announcement said. "Two other hand guns and two sporting rifles were found in the apartment."

Shriners Have One Officer To Elect

Los Angeles, June 21 (AP)—With three days of pranks and parades behind them, a few of the 135,000 fun-loving Shriners in convention here settled down today to transact a little business—as little as possible. This is the responsibility of the 76th Imperial Council session. Primary administrative task is the election of one officer, the imperial outer guard.

In 11 years the outer guard advances step by step to the office of imperial potentate, and thus considerable interest attaches to the election. There are two candidates, Dr. Clayton F. Andrews, past potentate of Sossoria Temple, Lincoln, Neb., and George A. Mattison Jr., past potentate of Zamora Temple, Birmingham, Ala.

Upon announcement of the new outer guard, Deputy Imperial Potentate Hubert M. Potat of Wake Forest, N. C., automatically succeeds Harold Lloyd as imperial potentate for the ensuing year.

Some Rural Areas "Under-Churched"

State College, Pa., June 21 (AP)—Rural communities are "under-churched" in the upper classes and "under-churched" for the lower classes, a rural sociologist says.

"While the upper and middle rural classes have too many churches, the lower classes do not have enough," said Dr. M. E. Johns, head of agricultural economics and rural sociology at the Pennsylvania State college.

Dr. Johns spoke yesterday before the opening session of the 12th annual conference of Pennsylvania town and country pastors. Some 200 clergymen are attending the four-day parley.

Washington, June 21 (AP)—High American, British and Canadian officials, presumably concerned over a recent wave of spy cases, are meeting here to plan tighter safeguards around atomic secrets.

The U. S. Atomic Energy Commission announced that "security standards" and "procedures applicable to the protection of information jointly held by the atomic energy programs of the three countries" are under discussion.

Washington, June 21 (AP)—Rep. James J. Delaney, 49-year-old New York attorney and former prosecutor, was reported slated today to head a Congressional investigation of the purity of the nation's food.

One of the first things that may be investigated is the possible effect that food grown on land fertilized with a by-product of the atomic bomb would have on humans who eat it.

BURY CROOK IN PRISON GRAVE

Attica, N. Y., June 21 (AP)—"Dapper Don" Collins, a suave international crook in prohibition days, goes to a prison grave today—unless someone from his gaudy past claims his body.

"Dapper Don" died of a heart ailment Sunday in Attica state prison hospital in western New York. He was 70.

As a young man, he made one known try at an honest living. He rode a bicycle in a cage full of lions.

Then he went to New York city and began a "career" highlighted by escapes involving charges of swindling, smuggling, blackmail and just plain stealing.

Spent A Fortune
A fortune slipped through his fingers when he was dodging detectives on both sides of the Atlantic—not always successfully. He served seven prison terms between 1908 and 1939.

In his heyday as a trans-Atlantic smuggler, "Dapper Don" lived high. But by 1939 he had sunk to cheap swindling, and he drew 15 to 30 years in Sing Sing prison for stealing \$200.

He was transferred here last November 4. He spent his last days cleaning cell blocks.

Next February he would have been eligible for parole consideration. Warden Walter B. Martin said "Dapper Don's" real name probably was Robert A. Tourbillon. He probably came from Atlanta, Ga.

Arthur T. Kaup.

Mr. and Mrs. Orner have returned from their Florida wedding trip. Mrs. Orner has had a clerical position in Harrisburg, while her husband is employed in the Dillsburg area.

Crops Need Warm Weather, Sunshine

Harrisburg, June 21 (AP)—Pennsylvania crops are in need of more sunshine and warmer nights, a federal-state agricultural survey showed today.

The survey, covering the week ended yesterday, was announced by the state Agriculture department.

The survey said the cool, rainy weather has retarded crop growth in many sections. It added that the daytime temperature for the period was nine degrees below normal in most areas.

Elsewhere on the farm scene, the survey reported: "Early stands of canning peas are being cut. Transplanting of tomatoes is about finished and first plantings for market are slow to set fruit. Strawberries are a short crop and a considerable rot of berries is reported. In the north, the crop is just ripening, while production is past peak in the southeast."

High Champions Guests of Lions:
Like champions they played baseball
this spring and won the pennant in
the Central Pennsylvania Scholastic
league and like champions they par-
toked of a sumptuous dinner at
Sauble's Inn, Taneytown, Monday
evening, and emerged victorious.

That summarizes the crowning
achievement of the Gettysburg High
School baseball team, who were
special guests of the Gettysburg
Lions Club Monday evening at
Sauble's Inn.

Jacob Weikert, who followed his
brother, Wilbur Weikert, as varsity
catcher for the team, was unani-
mously chosen captain of the 1926
baseball squad by his teammates
before the dinner.

on its way a dozen airplanes circled.

Today's Talk

By GEORGE MATTHEW ADAMS
ESSAYS

There are no writings in literature
more delightful than essays. They
are written for pure entertainment
and personal delight. In addition,
fine essays are rich in stimulating
ideas. They are also bits of personal
revelation.

Recognized as the father of the
essay is Montaigne, born in 1533. He
would tell his friends that if they
wanted to know about him all they
had to do was to go out and buy his
book of essays—and they are read
to this day with enthusiasm and
profit. Scores of other fine essayists
have followed in his train, such as
William Hazlitt, Hunt, and Charles
Lamb, all of whose works I have
long loved.

In 1853 there was published a
volume of the most beautiful of all
English essays, "Dreamthorp," by
Alexander Smith, which the author
called "a book of essays written in
the country."

It has been a favorite of mine for
years, and I have collected every
edition from the first. I have no
less than a dozen editions, published
by different firms, though its popu-
larity remains among lovers of the
essay, mostly. But there is something
notable about a book that will last,
and be loved by selective readers for
nearly a hundred years!

Never do I tire of reading the
essays of Charles Lamb. Once you
read him you will return again and
again to him. A veritable classic is
each one he wrote. "Dream Child-
ren" is my favorite. The late E. V.
Lucas, himself one of the finest of
modern English essayists, was a
great admirer of Lamb, and wrote
the best four-volume edition of his
life and letters. I have at least 30
small volumes of the Lucas essays
in my library.

An American essayist of great
talent, as well as a poet and novelist,
is Christopher Morley. His recent
collection of essays under the title of
"The Ironing Board," I read with
delight. He says that they were writ-
ten "in fun and fury over the last
ten years." But Morley has written
hundreds of essays over a long term
of years, and all are entertaining and
stimulating. There is no American
writer of essays superior to Christo-
pher Morley.

Few novels get into a second read-
ing, but fine essays can be read
again and again, with increasing de-
light. I highly recommend the essay
habit! It will both inspire and relax.

Tomorrow Mr. Adams will talk on
the subject: "The Essentials."

Just Folks

SEASON'S CHANGE

If it were always summer and all
the long year through
The sun was never hidden and skies
were always blue;
If green things never rested beneath
the winter's snow,
The charm of young flowers bud-
ding would not be ours to know.

The everlasting blossoms with petals
stiffly made
Grow dusty as we keep them; their
brilliant colors fade.
But lovelier blooms are fragile, their
charm is for the day,
And they the more are cherished be-
cause they cannot stay.

Without the winds of winter we'd
miss the joys of spring.
Were there no cares behind us and
no cares following,
Of pleasure we would weary, and
that is why appears
Of all the smiles the brightest, the
one that follows tears.

Biglerville Merchants Offer Many Opportunities

To publicize "This Other Eden," a comedy of Adams county life, to be pre-
sented Friday night at 8 o'clock at the South Mountain fairgrounds, Jack
Thrush, 200 Springs avenue, attempted to lead a cow up the Main street of
Arendtsville. However, the cow refused to cooperate, so Jack, who plays the
role of "Morbid" in the show, substituted a billy goat named "Peanut But-
ter," and toured the streets of Gettysburg on Saturday night. The play is
the first production of Adams County's Little Theater Group. Pictured, also,
are interested spectators to the Arendtsville stunt, and Jack Augustine, R.
2, Gettysburg, whose part in the show is that of the son of a saw-
mill owner.

LIONS ASKED TO DONATE BLOOD

The regular meeting of the Up-
per Adams county Lions club was
held Tuesday evening in Ditzler's
restaurant, Biglerville, with Harry
Geiselman presiding.

L. V. Stock, supervising principal
of the Upper Adams Joint high
school, reported on the state con-
vention which closes today at Penn
State college. Others attending the
convention included, Harry P.
Geiselman, Russel S. Hackman,
Arnold E. Orner, Clyde A. McCaus-
lin, M. Francis Coulson, Donald
Horst, Harvey W. Knouse and Clark
Fetters.

An appeal was made to the Lions
for blood donors in behalf of their
fellow member, Cecil Snyder, now
in the Jefferson hospital, Philadel-
phia. The blood is needed to replace
that already taken from the blood
bank.

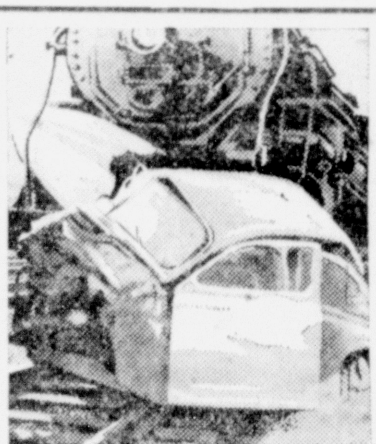

The members voted to operate a
refreshment stand at the South
Mountain fair this year.

The next meeting will be held
July 18 in the Musselman cafeteria,
Biglerville, and will feature a tour

ACHESON ASKS GOVERNORS' AID

White Sulphur Springs, W. Va., June 21 (AP) — Secretary of State Acheson appealed to the nation's governors Tuesday to support President Truman's program of aid for the world's backward areas.

"By aiding the people of underdeveloped areas to deal with their basic problems of food, health and education," he said, "we shall be strengthening their resistance against extremism of whatever kind."

Acheson spoke before the state governors who have gathered for a four-day study of domestic and world problems. In his prepared speech, the secretary dealt entirely with United States efforts to help strengthen the free world and maintain world peace.

The administration has advanced

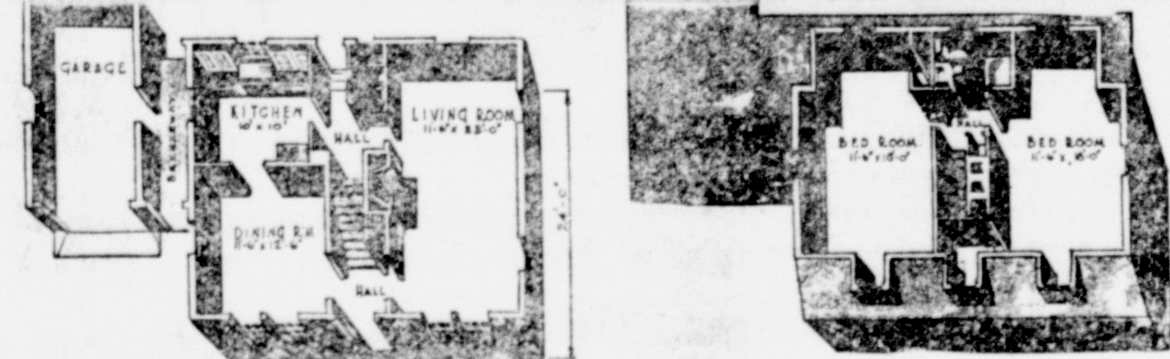

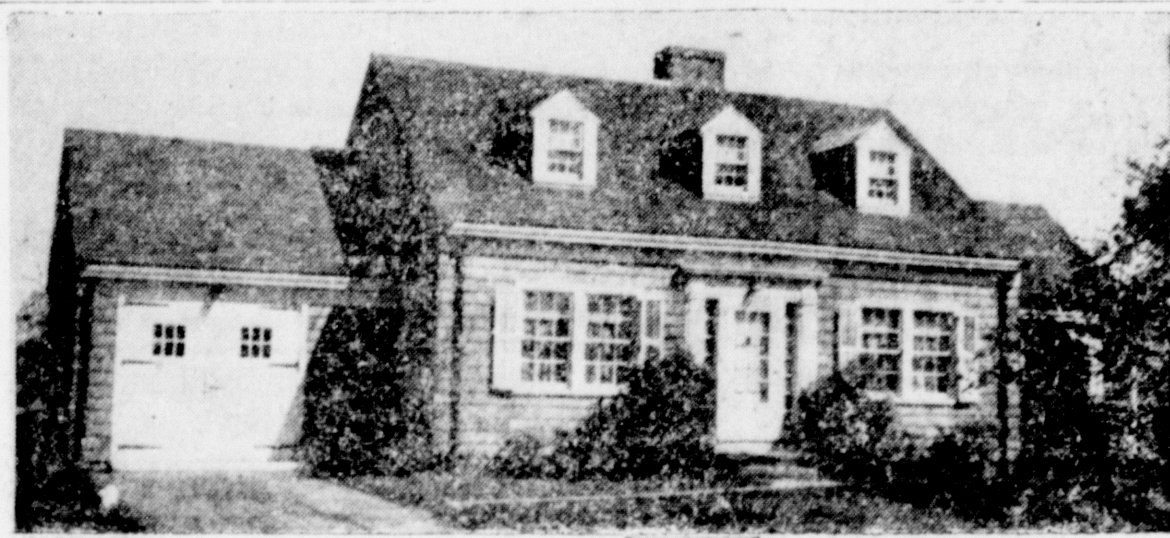

the aid to backward areas program—called "point four" after its position in President Truman's inaugural address—as an important factor in building peace. Acheson said that while this program would be a moderate one, the results "will make a great contribution."

Congress has authorized \$35,000,000 to initiate the program but has yet to appropriate the money. Acheson urged Congress to give quick approval and deplored what he said were "narrow isolationist" attacks on the bill.

"The effect of these attacks," he said, "has been to obscure the basic elements of self-help in the program and to obscure the fact that it deals with fundamental problems of community life—health, sanitation and agriculture."

As a result of the famous brass key kite incident in 1752, Benjamin Franklin is credited with being the founder of the study of static or atmospheric electricity.

Building Ideas For Home Owners Of This Community

FIRST FLOOR PLAN

SECOND FLOOR PLAN

So completely has Cape Cod architecture won the hearts of American home builders that today Cape Cod cottages are common in almost every section of the country. In fact, surveys show the Cape Cod to be the most popular of all American styles.

A good example of this type is "The Cheshire," which is presented today by the "Home of the Week" Plan Service. Aside from the "homey" appeal of the Cape Cod, its ease of construction and low first cost entitle it to consideration. The Cheshire possesses these creditable qualities.

With outside dimensions of 24x30 feet, this house has a total cubage of 15,200 feet. Addition of the breezeway and garage, as pictured in the accompanying photo and floor sketches, would add 2,400 feet to this total. For the best effect, this home should be built on a lot with not less than a 60-foot frontage, preferably one facing the southwest or southeast.

Perfect balance and good proportions are essential of the Cape Cod style. Due consideration has been given to these factors in designing The Cheshire. The center of interest in the front elevation is the plastered entrance with its stock Colonial door and small-paneled sidelights. In the picture the front door is concealed by a combination storm door, in which glass may be replaced by bronze screening in summer.

Balancing the front door, at either side, are double windows. Copper downspouts at either end of the house contribute to the sum of balance.

Attractive Dormers Breaking the front roof expanse are three nicely proportioned dormers. The large chimney is set back of the roof ridge and made less conspicuous.

the room is occupied by working counter and wall cabinets, with a double sink in the center of the counter, and just under a window opening. Another window, looking out on the breezeway connecting house with garage, could be made into a door if more direct connection between house and garage is desired.

The rear service hall, between kitchen and living room, connects with a rear entrance to the house. Stairs to the full basement are reached from this hall and a downstairs lavatory and toilet opens off the hall, convenient to the living room. Rear hall, lavatory, kitchen and upstairs bath all have linoleum floor covering; specifications calling for oak finish floorings in other rooms of the house.

On the second floor hall space is minimized but it is large enough to include a linen closet of good dimensions. A small but well-planned bathroom opens off this hall, located between the two bedrooms.

The bedrooms are of the same size, each measuring 11x18 feet. Both rooms have a single clothes closet and windows on three exposures.

For year-around comfort in a house such as The Cheshire, specifications should include insulation of roof and second floor ceilings. Ventilating louvers for the attic space are located in the end walls, just under the gable.

Complete plans for "The Cheshire," "Home of the Week," or any other design of this series may be obtained at moderate cost. To ascertain exact price of these documents write to the Home Building Editor and enclose a self-addressed envelope bearing a three-cent stamp. At least one week should be allowed for a reply.

To remove old patches of wax from a waxed linoleum floor, use turpentine. Simply saturate a clean

Crossings should be Seen and not Felt

WHEN the sign says "Stop, Look and Listen," the prudent driver does.

But after that what? Must you still move forward at a cautious crawl or pay toll in jar, jitter and jounce?

Not, good sir, when you're at a Buick's wheel.

You step on the throttle, move easily, swiftly forward. Your wheels dance—your tires drum-roll over rail and plank.

But four gentle coil springs, one on each wheel, are working their magic—and you hear rather than feel the rough spot you have crossed.

That, of course, is only one kind of rough going you can meet in your travels. It's only one kind of discomfort your Buick's built to master.

For beside gentle coil springing, every Buick rides on soft, low-pressure tires. Every one is steadied by a rigid torque-tube. Every one boasts a rigid, weaverproof frame—soft, sure shock absorbers—even special engine mountings to minimize vibration.

They can have the special added smoothness of Dynaflo Drive,* cushioning power-thrust in spinning oil.

So rough spots seem to level out

at your coming. Boulevards take on a new smoothness. You know what riding comfort is—why the Buick ride is called matchless.

So how about it?

Come climb into a Buick and see for yourself what we mean. You'll get a style-thrill and a power-thrill along with your ride-thrill—and a story on price that eliminates your last excuse for not traveling in the Buick manner!

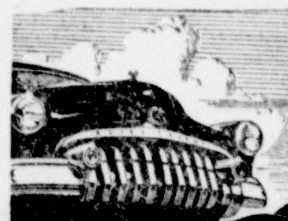

Only BUICK has Dynaflo—and with it goes: HIGHER-COMPRESSION Fireball valve-in-head power in three engines (New F-263 engine in SUPER models). • NEW-PATTERN STYLING, with MULTI-GUARD fender, taper-through fenders, "double bubble" taillights • WIDE-ANGLE VISIBILITY, close-up road view both forward and back • TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius • EXTRA-WIDE SEATS cradled between the axles • SOFT BUICK RIDE, from all-coil springing, Safety-Ride rims, low-pressure tires, ride-steadying torque-tube • WIDE ARRAY OF MODELS with Body by Fisher.

SENATE OKAYS EXPANSION OF SOCIAL SECURITY

Washington, June 21 (AP)—Senate approval by 81 to 2 carried the promise of higher old-age pensions for millions of persons a long step closer to reality today.

By this thumping vote, the Senate last night passed the bill that would roughly double benefit payments under the old-age and survivors insurance system in the federal social security system.

The measure is a major part of the administration program. It would add about 10,000,000 persons to the 35,000,000 now covered and would liberalize requirements for qualifying for benefits.

Differences Remain
Before final action is taken by Congress, differences between the Senate bill and a similar bill passed by the House last year will have to be ironed out by a conference committee.

Many thorny questions remain to be settled. One of the sharpest issues in dispute is whether to provide for disabled persons in the social security program. The House bill would do this but not the Senate measure.

Other key differences that will have to be threshed out by the conference committee include benefit formulas, tax rates, eligibility requirements and federal contributions for public assistance (direct relief).

More Changes Studied
Even as the Senate passed the bill, with only Senator Butler (R-Neb.) and Cain (R-Wash.) voting against it, steps were taken toward further and possibly more fundamental changes in the social security system.

Without dissent, the Senate directed its finance committee to make a thorough study of the whole program.

Senator Taft of Ohio, the Republican policy chief in the Senate, said in a statement after the bill passed that he favored development of a system "under which old age pensions will be paid to all persons over 65 on a pay-as-you-go basis."

Payroll Tax Would Rise
The present payroll tax of 1 1/2 per cent each on employer and employee would be continued until 1956. Then it would rise gradually to 3 1/4 per cent on employer and employee alike in 1970 and thereafter.

As the bill was passed by the Senate, the present payroll tax of 1 1/2 per cent each on employer and employee would be continued until 1956. Then it would rise gradually to 3 1/4 per cent on employer and

employee alike in 1970 and thereafter. Taxes would be collected on individual earnings up to \$3,600 a year, instead of \$3,000 as at present. The higher figure was written into the bill yesterday and conforms to the provision in the House bill. This means that a man making as much as \$3,600 a year will be taxed \$54 a year instead of the \$45 he has been paying on his first \$3,000 of pay.

This was the principal amendment adopted by the Senate. The effect would be not only to increase tax collections but also to boost the

maximum pension under the bill to \$54 a month. Under present law the maximum is \$56 and the average benefit now being paid is \$26. Both House and Senate bills would raise the maximum family benefit from \$85 to \$150.

Democratic Leader Lucas of Illinois and Senator Myers (D-Pa.) led an effort to increase the taxable wage base to \$4,200 but were defeated, 45 to 36, on a roll call vote. Under their proposal the top benefit would have been increased to \$87.50 a month.

Lancaster, Pa., June 21 (AP)—Lancaster city and county gained 10 per cent more residents in the last 10 years, the district census supervisor announced yesterday. The city-county combined population now stands at 234,137—21,633 more than

the 1940 figure. In the county, there are now 170,536 persons listed compared with 151,159 10 years ago. Lancaster city now has a population of 63,601 compared with 61,345 in 1940.

Philadelphia, June 21 (AP)—A 23-

year-old army corporal was held without bail Monday for a hearing on charges of robbery. Cpl. Darwood B. Samson was arrested yesterday and readily admitted robbing a service station in nearby Springfield township of \$195 when confronted by the station's operator, Dale West, Police Capt. Harbey Williamson said.

"ROCKET 88" OLDSMOBILE WINS 2178-MILE DURABILITY RUN!

Outperforms 131 other cars in grueling Texas-to-Guatemala test!

Below, the map of the course—the new Pan-American Highway. At right, Herschel McGriff and his "Rocket 88" Oldsmobile.

Here's proof of the brilliant performance and rugged dependability of the "Rocket 88" Oldsmobile. In a 2178-mile endurance run, down the full length of Mexico on the newly opened Pan-American Highway, a 1950 Oldsmobile "88" topped a field of 131 other cars! So long and hazardous was the route

that only 53 of the 132 entrants finished the race. Twelve popular makes of American cars—and many foreign makes—entered the grueling contest. The course included all types of terrain—over towering mountains—through jungles—across desert flatlands. The Olds "88" took top honors—in fact,

three of the first ten and six of the first twenty were Oldsmobiles! This is clear evidence of the outstanding performance and endurance built into every "Rocket" Engine and every Oldsmobile! Drive this truly remarkable car! Make your date with a "Rocket 8" at your nearest Oldsmobile dealer's!

Littlestown RAIN CHANGES LADIES' NIGHT FOR ROTARIANS

Rain caused a change of plans for the Littlestown Rotary Club Ladies' Night, which was scheduled to be held Tuesday evening on the lawn of Mr. and Mrs. Luther D. Snyder, East King street. It was held instead in the banquet room of Schott's hotel, where a picnic luncheon was served in a cafeteria manner to approximately 60 Rotarians and guests.

It was announced that P. Emory Weaver and Clyde Crouse became active members of the club last week. Mrs. Clyde Crouse was presented to the group.

Charles Ritter, a member of the

club service committee which was in charge of the Ladies' Night program, presided over the program. Luther D. Snyder presented James Wehler, Carroll Reed and Glenn Dutcher, Boy Scouts, to the group. These scouts had planned to present a Boy Scout aquatic program in Mr. Snyder's swimming pool, but were unable to do so because of the rain. Paul E. King introduced Elmer W. Gall, teacher of social studies in the Littlestown Junior-Senior high school, who spoke on his experiences as a prisoner of war in Germany during World War II, and his escape from the prison camp. "Our daily diet for the six months that I was a P.O.W. in Germany consisted of a cup of coffee for breakfast, a bowl of sea-weed soup for noon and a slice of bread and a slice of cheese for supper," he said. During this period the speaker said he lost 60 pounds. Continuing he said: "Once a month the International Red Cross came for inspection. On those two days, the food rations were greatly improved." Having an excellent knowledge of German, Mr. Gall

acted as an interpreter for the P. O. W.'s in the prison camp.

Miss Nancy Snyder, daughter of Rotarian and Mrs. L. Robert Snyder, was also a guest. A. W. Schott, retiring president, was in charge of the meeting. Next week's program committee, A. G. Esly, chairman, will be in charge of the program, at which time the officers for the 1950-1951 Rotary year will be installed.

Carnival Opens Thursday

Everything is in readiness for the annual Fish and Game carnival which will open on Thursday night on the Littlestown playground and continue Friday and Saturday nights. Stands were erected by the members on Monday evening. Entertainment for Thursday night consists of Mike and His Twilight Entertainers. On Friday night there will be two concerts by the Littlestown Men's chorus and Saturday the Littlestown high school will present a concert. There will be a big party every night. There will also be exhibits of farm machinery and automobiles. Refreshments will be on sale.

The Littlestown Playground program started on Monday. Because of wet grounds, the program couldn't get underway until Monday afternoon. On Monday afternoon about 35 boys and girls over 10 years of age participated in the program and on Tuesday afternoon there were about 50 boys and girls of this group came to the playground. Clayton L. Evans and Miss Mary Kay Crouse who are in charge of the program said that many of the girls who participate in this program are attending the Camp Little Day Camp for Girl Scouts this week, so they anticipate an increased enrollment next week.

About 30 children between the ages of four and nine are enjoying the morning program from 9:30 to 11:30 a.m. The leaders have announced that these playground programs are for children from four years of age and up. There have been numerous inquiries about children under four, but the leaders stated that no provision has been made in the program to care for children under four.

Tuesday and Thursday nights there will be midge baseball for the boys from 6:30 to 8:30 p.m. and on Thursday nights there will be soft-

ball for the girls.

Harry's and Sonny's softball team defeated the Foundry on Tuesday night by a score of 5 to 3. Tonight the contest will be between the Mystic Chain and Redeemer's Reformed church.

Class Holds Meeting

Mrs. Hazel Hess, president, conducted the monthly meeting of the Hustlers' Sunday school class of Redeemer's Reformed church on Monday night in the social hall. Following the group recital of the Apostles' Creed, there was a song service with Miss Louise Duttera as pianist. Mrs. Richard Hartlaub read the Scripture lesson and Mrs. Curvin Hollinger offered prayer. The program centered around the theme of "Father's Day." The following readings were presented: "A Letter to My Son," Mrs. Robert Miller; "Poor Old Dad," Miss Helen Wisotzky; and "When Papa Is Sick," Mrs. George Dehoff.

Miss Louise Duttera presented the secretary's report which revealed that there were 29 members and three visitors in attendance. Mrs. George Dehoff presented the treasurer's report. The class decided to have a picnic for the members and their families on July 17. Miss Helen Wisotzky, Mrs. Melvin Wehler and Mrs. Robert Miller were appointed to select the place and plan the games. The place will be announced in the paper. The next regular meeting of the class will be held Monday, September 18, in the social hall, when the annual covered dish will be served. Rainy day bags are to be returned at this meeting. The program and hostesses will be Mrs. Ralph Staley, Miss Malva Duttera and Mrs. George Dehoff.

Mrs. Lloyd E. Crouse donated a

guess package which was received by Mrs. Frank E. Reynolds. Games were enjoyed and prizes were awarded to Mrs. Melvin Wehler, Mrs. Ralph Staley, Miss Helen Myers and Mrs. George Dehoff. Refreshments were served by the hostess and program committee consisting of Mrs. Hazel Hess, Mrs. Richard Hartlaub and Mrs. Curvin Hollinger.

Restme CE Meetings

Weekly meetings of the Christian Endeavor society were resumed on Sunday evening at St. John's Lutheran church, after a recess during the late winter and spring months. There was a large attendance of young people for this reorganization meeting. Miss Helen Myers was the leader and the devotional program consisted of hymns, Scripture and prayer. The topic was, "We must seek to train ourselves and we must go forth to serve others." The history and principles of Christian Endeavor were also reviewed at this meeting. Announcement was made of the annual convention of the Adams County Christian Endeavor Union to be held in the church on Friday at 7:30 p.m. The Rev. Dr. Norman W. Paulin, minister of the Baptist Temple, Philadelphia, and pastor-counselor of the state Christian Endeavor Union, will be the speaker.

Election of officers followed in charge of the pastor, the Rev. Kenneth D. James. Robert D. King was elected president of the society. Other officers elected were: vice president, Norman Johnson; secretary, Brenda Hess; assistant, Alvina Grotz; pianist, Jean Yealy; assistant, Evelyn Harget. These officers will be installed next Sunday at 6:30 p.m. and the topic will be based on the installation service.
